

Redistricting CD3-IL

Dear committee members,

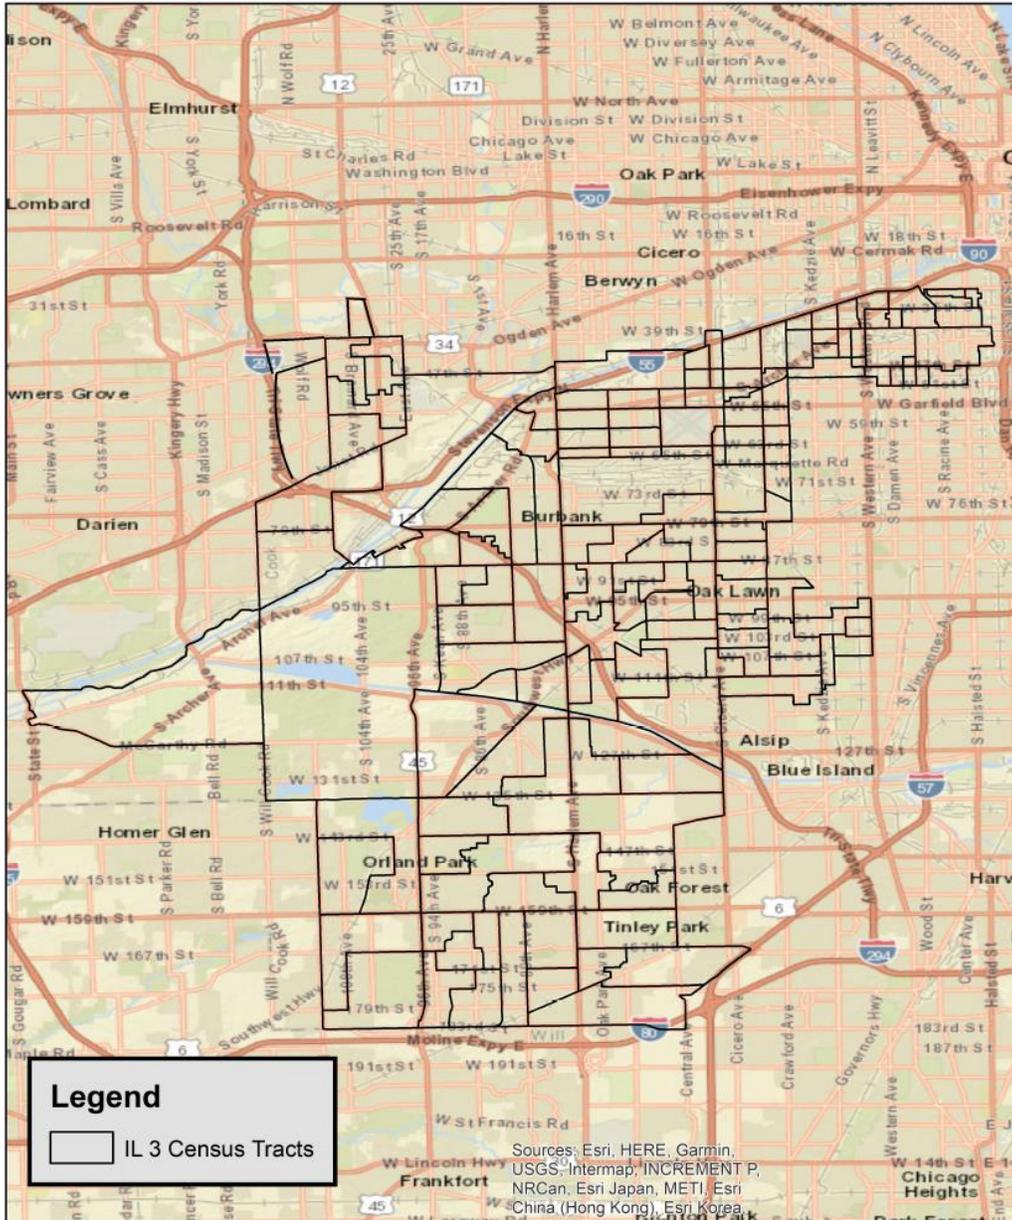

I'm appalled at the near-elimination of my 3rd congressional district in the latest proposed redistricting map. I've lived in 3rd CD IL since 1979, in multiple towns, all within the district. It's been a southwest suburban and southwest side community and should remain one, not be shifted in a way that dilutes the voices of the people that live here.

I beseech you to consider a map, like the attached one, that retains the general shape of the present ID-03 congressional district.

Thank you!
